

SAGAR DHOK

Backend Python Developer | Django, DRF | Scalable REST APIs | PostgreSQL, MySQL | RBAC Systems

Pune, Maharashtra, India

Phone: 9764645156 Email: sdhok041@gmail.com

GitHub: github.com/SagarDhok LinkedIn: linkedin.com/in/sagar-dhok

Summary

Backend Python developer experienced in designing and deploying scalable REST APIs using Django and Django REST Framework. Built multi-tenant RBAC systems, secure onboarding pipelines, and optimized database queries across production-deployed applications.

Technical Skills

Languages: Python

Frameworks: Django, Django REST Framework, FastAPI (Learning)

APIs: REST API Design, Authentication, Authorization, Pagination, Filtering, Validation

Databases: PostgreSQL, MySQL, Relational Schema Design, ORM Query Optimization

Frontend: HTML, CSS, JavaScript (Basic)

Tools: Git, GitHub, Postman, VS Code

Projects

Smart ATS — Application Tracking System

GitHub: github.com/SagarDhok/Smart_ATS

Live: smart-ats-v0yf.onrender.com

- Built multi-tenant recruitment platform using Django and DRF implementing 4-tier RBAC hierarchy.
- Implemented custom permission logic and query-level data isolation improving secure role-based access.
- Developed token-authenticated REST APIs supporting recruiter and admin workflows with filtering and pagination.
- Designed normalized PostgreSQL schemas improving recruiter workflow data consistency.
- Built fault-tolerant resume parsing pipeline handling malformed and encrypted PDF resumes.
- Integrated Brevo Email API enabling automated recruiter onboarding invitations.

Movie Opinion Meter

GitHub: github.com/SagarDhok/Movie_Opinion_Meter

Live: movie-opinion-meter.onrender.com

- Developed voting and review APIs using Django and DRF.
- Implemented database-level unique constraints ensuring vote integrity and preventing duplicate voting.
- Optimized ORM queries using `select_related` and `prefetch_related` reducing redundant database queries.
- Designed normalized relational schema using TMDb identifiers ensuring data integrity and scalability.
- Implemented real-time vote aggregation using Django ORM annotations for efficient statistics computation.

Education

Bachelor of Computer Applications (BCA)

Shankarlal Khandelwal College, Akola

CGPA: 7.44
